D'Addario started making reeds in 2004 and have worked tirelessly to provide superior reeds. They have invested millions of dollars of new technology and quality control. Every aspect of their reed-making has been re-developed and drastically improved. They grow 100 percent of the cane, enabling them to monitor and control their raw material, from growth to harvest. Healthy cane and state-of-the-art machinery have allowed D'Addario to create the most consistently manufactured single reed to date.

Rico Reeds

An outstanding reed for a wide variety of musical situations. Reasonably priced, these reeds offer outstanding consistency and performance characteristics for clarinet and saxophone players of all abilities.

Gonzalez Reeds is one of the leading manufacturers of world-class hand selected clarinet and saxophone reeds. Since our beginnings in 1982, our mission has been to create the world's best woodwind reeds. Reed quality is prioritized by choosing only the best raw material and then manufactured using the latest technologies. That is why Gonzalez hand selected reeds are now a brand synonymous with excellence in over 30 countries across the world.

GONZALEZ REEDS www.gonzalezreeds.com

RC – Regular Cut – All Instruments

RC reeds have a classic, French style filing. This leaves the scraping in the most vibrant area of the reed and produces a very brilliant sound. The material is stored to age for at least 3 years before it is put through the manufacturing process — the cane is extremely stable as a result. Its shallow shoulders have a closed half-moon shape which helps to maintain the tuning despite being an extremely flexible and spontaneous cane.

FOF – Bb Clarinet only

Meant for those clarinetists that need a reed with a darker sound. They are made following an "American" cut. These reeds have thicker wood in the heart and the material is stored to age for at least 4 years before its manufactured. Because of its deeply carved shoulders, the reed is completely released in the bass sounds, where it vibrates like no other.

Forestone Reeds

The Forestone material is a mixture of polypropylene resin and cellulose wood fiber. More than 50 percent of the wood fiber used is bamboo. The material is tasteless, odorless and non-toxic. Forestone reeds maintain their strength and resistance over time. They vibrate well and hold the center of the sound in a manner similar to that of a good quality cane reed.

DOUBLE REED STRAPS

MADE IN FRANCE

BAND

ELASTIC vs NON-ELASTIC

Every detail is taken care of at BG. We offer two different straps. Both help to limit pressure on the thumb rest, arms, shoulders and to prevent neck strain, thus helping the musician breathe better.

ELASTIC STRAPS

Elastic straps provide more freedom of movement, prevent bad back postures and help the musician breathe better.

NON-ELASTIC STRAPS

Non-elastic straps improve the control of the embouchure.

SILVERSTEIN

WORKS

www.silversteinworks.com

The Ligature for Perfectionists

The Silverstein Ligature is an innovative advancement of a classic concept: a minimalist cord-based ligature that liberates the most natural vibrations of the reed. A new cord designs uses a thinner thread that allows for even less contact and pressure with the reed. The redesigned cord allows for greater control, a more dynamic sound, and a richer tone.

Strongly improved grip

Better sound dynamics

Freer reed vibration allows improved harmonic partials

Better pitch stability of throat tone

Improved aesthetics

Even More Harmonic Partial

Includes cap and user manual with warranty registration card.

ROVNER LIGATURES – THE ORIGINATOR

Innovators in Clarinet & Saxophone Ligature & Mouthpiece Technology for the last 36 years. Used by renowned Classical, Jazz, Blues and Rock artists. There are many imitations - but there is only one Rovner! Available for all saxophones and clarinets. Supplied with black caps. Unless ordered otherwise, are supplied with metal fittings that match the instrument or the mouthpiece with which it is likely to be used.

Dark

Gives a darker, richer tone quality.

Light

Gives a brighter more open tone quality.

MARK III

Maximum performance types that yield the best response, clearest, biggest sound, and playability of any ligature available.

Versa

Features a metal cradle which can be altered to create six different tones. Jazz and classical players alike appreciate the Versa's ability to personalize their sound. It is ideal for the player seeking to fine-tune the ligature's responsiveness and tonal qualities.

Versa X

A Next Generation ligature with the addition of a newly-designed black-on-black layered metal cradle and Rovner's unique resonating ribs.

Legacy

The powerhouse Legacy is for any player seeking the ultimate in "presence" and projection. It is enjoyed by the demanding jazz/rock/blues sax player delivering a high-energy performance, even in an amplified setting.

Platinum

All metal ligature for any player seeking the ultimate in tonal purity and clarity. Initially preferred by classical players for its pleasing tonal characteristics, the Platinum is also enjoying a surge of interest from jazz players excited to explore its enhanced tonal spectrum.

Star

This ligature represents the next generation Rovner. Born out of the desire to have "better performance, simpler design, less cost". This epitomizes, "Less is More". It's beauty is it's simplicity. Now anyone can enhance their playing performance.

CAP NOW INCLUDED

Van Gogh

Neutral in tone, the Van Gogh responds to simple adjustments that help the player paint exactly the musical picture he or she wishes to share with the audience. The Van Gogh is a masterpiece of a ligature that can do it all.

Hodge Silk Woodwind and Brass Swabs

Hodge Products, Inc.

All Hodge silk swabs are made from 100% silk. Silk is very absorbent, wicking moisture from the instrument quickly and efficiently. Most uniquely, silk is also very compressible, making it possible to pull through instruments with large variations in bore size. In addition, silk is lint free.

p Buzz Bone Trumpet

St. Louis Music is thrilled to announce its new partnership with Warwick Music Group and will be proudly distributing its complete range of award winning instruments in North America. Warwick Music Group are the makers of the incredible pBone, the best-selling trombone on the market over the last few years. WMG also manufacture other quality plastic instruments like the award winning pTrumpet, and the beginner's sensation, pBuzz.

pBuzz®

Introducing a fun, new musical instrument – More eye-catching than a recorder, lighter than a drum and easier to play than a xylophone – pBuzz makes for a magical, musical playtime.

An easy to play instrument from the British makers of the award-winning and best-selling **pBone**, and **pTrumpet**, the brightly-coloured, lightweight is a fun, easy introduction into brass playing. Made with patented hard-wearing, plastic design.

The brightly colored pBuzz has been specially designed for young musicians, making it easy and fun to hit the right note every time!

The light and smoothly curved edges of the makes a great first purchase for all musicians.

The mouthpiece is made with BioCote, a market leading antimicrobial technology for ultimate protection against microbes, such as bacteria and mold.

pBuzz®

Features:

- » 5 inch bell
- » Light weight
- » Easy to play slide
- » Pitched between the pBone and pTrumpet
- » Durable
- » Hygienic Bio-cote antimicrobial mouthpiece

pTrumpet®

The world's first ever fully plastic trumpet – a fully functioning Bb trumpet, designed in the UK for musicians by musicians. Comes in its own, smart gig bag along with a 3c and 5c mouthpiece.

Authentic

pTrumpet is a truly authentic musical instrument that has sparked a revolution in the way the music industry thinks about trumpets.

Innovative

pTrumpet is the only trumpet with a fully plastic valve system, which we have designed and developed to create unrivalled lightness, durability and sound quality.

Accessible

pTrumpet is less than half the weight of a brass trumpet, so it's ideal for the younger player and for all those who may have difficulty with the weight and balance.

Affordable

Its unrivaled price enables everyone to enjoy the quality of an equivalent metal instrument at a third of the cost. The perfect starter instrument.

The plastic mouthpieces are especially designed for the pTrumpet. Comes with both a 3C and 5C pTrumpet mouthpiece, you can also use any standard metal trumpet mouthpiece in the pTrumpet.

Adjustable Tuning Slides

The all-plastic main, first and third valve tuning slides give you the flexibility of tuning.

BioCote Protection

Incorporates patented anti-microbial technology from BioCote, which provides the highest standards of protection.

pBone®

pBone is the world's first plastic trombone; it's a lot of fun but also a quality instrument, perfect for beginners and professionals.

Durable

pBone is remarkably tough. It can take knocks and bumps in its stride. Perfect to allow beginners to explore the trombone without any fear of damage.

Accessible

At less than half the weight of a brass trombone the pBone is ideal for the younger player and for all those who may have difficulty with the weight and balance of a metal trombone.

The unique strength of the glass fibre material means that "dings and dents" in your slide are a thing of the past!

Mouthpiece

The small shank matches standard medium bore trombones so any regular small shank metal mouthpiece will fit.

Water key

The pBone has its own unique water key design.

Lockable slide

pBone has a lockable slide that features a graphic to ensure the locking process is clear and simple to all.

How to play

Let us help you: with hand and slide positions, improve your playing skills and breathing technique, setup your pBone, learn about buzz and play and find downloads to help you further.
